Re: Maximum Weekly Benefit from July 1, 2009 to June 30, 2010

Dear Friends:

The Kansas Department of Labor, Labor Market Information Services has recently reported that Kansas' average weekly wage for calendar year 2008 was \$727.69. Based upon the state average, the maximum workers compensation weekly benefit for the period of July 1, 2009 to June 30, 2010 will be \$546.00. This maximum amount will apply to accidents occurring within this stated time period.

The minimum weekly benefit rate for accidental injuries resulting in death will be \$364.00. Information has not been released as to what the per-mile reimbursement rate will be for claimants' medical appointments. We will provide that information as soon as it has been issued by the State. In the meantime, please do not hesitate to contact us if you have any questions or need further assistance.

Very truly yours
